Located amidst the green expanse of Earthspace, Surat, Gujarat, Auro University provides its students and staff a unique learning environment with an emphasis on social interaction and knowledge creation.

**our mission**
A center for higher education, the University is focused on providing:

**to Students** - an environment for self development; an institution that nurtures their potential based on their aptitudes and interests

**to Faculty** - a platform to be mentors and guides who shape the country's future leaders by imparting knowledge and skills; opportunities for research on emerging trends and industry practices

**to the Industry and Community** - students with intellectual competence, reality-based knowledge and personal integrity; students who strive for excellence and aspire to become socially responsive leaders

*Auro University* is a progressive center for integral learning and leadership, where the mind, body and spirit are aligned and prepared to embark on a journey of lifelong enrichment for both, the individual and the community.

*Established under the Gujarat State Private University Act 2009*
It is my privilege and joy to welcome you to Auro University.

Auro University is inspired by the vision and teachings of Sri Aurobindo Ghosh and The Divine Mother. Sri Aurobindo said: “Man is a Transitional Being and is not at the zenith of his Evolution.” Auro University recognizes that each individual is a soul in evolution and needs to develop the entire personality around that innermost soul. We strive to help students grow to become active participants and conscious collaborators in the on-going process of human evolution.

Our efforts are directed towards developing in each student all four faculties: Mental, Physical, Vital and Spiritual.

Auro University will encourage, enable and empower students to discover themselves and reach their highest potential by imbibing our core values through self discipline, self control and self transformation. At Auro, our members of faculty and staff act as friends, philosophers and guides to prepare each student to face the challenges of a fast, dynamic and ever-changing material world.

Based on my background and experience over the years, I strongly believe that success is overcoming one’s own limitations, barriers and weaknesses irrespective of one’s station in life as a student, parent, spouse, professional or businessman. We sincerely hope to help students overcome the barriers that hold them back and experience the joy of achieving success through learning – the joy of becoming a leader and change-maker.

Above all, Auro University is an environment of creative energy and collaboration, driven by the power of ideas, built through the dedication of our founders, faculty, administration, community, and, most important of all, our students. We are committed to making Auro University a source of inspiration and knowledge. We hope to have the opportunity to have you here with us through these crucial years of your intellectual, social and spiritual growth, and look forward to a lifelong relationship.

Welcome to Auro University, Surat. As the first and the most specialized Private University in Surat, we currently offer courses in the area of Business, Hospitality, Information Technology, Law and Commerce. We are an institution committed to excellence in teaching and to progressive and relevant research and development. Our mission is very clearly defined: “...to be the Premier University, making available quality education and research, with a focus on integral and transformational learning.” This mission is supported by a comprehensive Strategic Plan, upon which each of our Schools bases its Strategic Operational Plan. Consequently, we have plotted a path for the future. Increasingly, we judge our performance in the context of achievable but challenging benchmarks, thinking more holistically, establishing international relationships, and in all aspects, making the university an exciting academic place to be in.

To continually remind ourselves of our commitment to students, we have adopted a student-centric approach to everything we do at the University, which outlines our responsibilities to our students, and their responsibilities to us. This helps us as we design new programs, and helps students focus on the important elements of university study. With the requisite skills and opportunities, our graduates emerge on top in terms of their career choices. Our extraordinary facilities for sport, leisure and the arts make Auro University a winning combination.

Above all, however, Auro University emphasizes the importance of merit in everything it does. As a student, if you want to become a part of Auro University, you will need to understand and accept this emphasis on academic standards, and the consequences of not performing at your best. We hope that you will understand and accept that we are doing this in the interest of students, the University and the Nation. We welcome your interest and invite you to become a part of this revolution in higher education.
In its quest for excellence, Auro University is working closely with the School of Hospitality, Retail and Sports Management and the Darla Moore School of Business at the University of South Carolina, Columbia, USA, in several areas to provide an international level of education in India.

about the promoters: the JHM story

The humble beginnings of JHM Hotels can be traced back more than three and a half decades. Mr. Hasmukh (H.P.) Rama went from India to the U.S.A. in 1969 to pursue a Master of Business Administration. His first job was that of a dishwasher in a Howard Johnson motel. Shortly after, he got his first promotion – he became a waiter. In 1973, he purchased his first property: the 37-room Sunset Motel in Pomona, California.

His brothers soon joined him to create a family business that has since grown to be among the top 50 Hotel Management companies in the U.S. Over the last 37 years, the Rama family has built and acquired 79 hotels. The company currently owns 42 hotels with over 7,200 rooms in India and the U.S., which operate under top-performing franchise flags such as Hilton, Hyatt, Marriott, and Starwood.

JHM is driven to be a premier lodging company that promotes open communication, strong values and the attainment of Siddhi: Perfection.

JHM has, in the last few years, begun to diversify its business interests in India with a focus on hospitality, education and real estate, particularly in the states of Gujarat and Maharashtra. Besides being the promoting company of Auro University, education has been at the core of the Corporate Social Responsibility commitment of JHM Hotels. The Company has created The Rama Scholarship for the American Dream, which has benefited more than 350 students pursuing careers in hospitality management.

With complete dedication and commitment, the Rama family is proud to develop Auro University as a premier educational institution for future generations.

Unlocking Highest Potential - Each course requires students to complete real life experiential learning in addition to the theoretical foundations of the subject matter. Students are encouraged to think, question and participate in academic debate in a setting that promotes peer learning.

Real Time Knowledge - The curriculum for each course is up-to-date and reflects present day workplace scenarios, challenges and expectations, supported by contemporary research findings and case studies.

Progressive Faculty - Qualified and experienced national and international faculty, who promote innovative teaching methods supported by cutting-edge technology.

Exchange Programs - Student and faculty exchange with the University of South Carolina provides exposure to current day knowledge and international practices. Eligible students have the option of getting an undergraduate U.S. degree through credit transfers.

Experiential Learning - Strong partnerships with businesses, especially in the service sector in India and abroad, provide a hands-on learning experience to all students. Regular guest lectures by experts from industry, as well as workshops, live projects and industry visits help students relate theory to practice in real life situations.

Auro’s unique curriculum is focused on:

University of South Carolina (USC)
At Auro, learning is challenging, engaging, strengthening and enjoyable at the same time. We focus on encouraging students to engage in a rigorous process of learning and self-discovery. The University has moved away from the conventions of the status-quo as applied in most academic programs and has adopted a highly focused approach to education versus rote learning. Each day, students focus on one key course and spend time on learning the course fundamentals and their application in business and society.

The University encourages and promotes learning on a 20:30:50 principle, where lectures constitute 20 percent of the delivery (Hear); visuals 30 percent of the learning methods (See); and experience 50 percent (Do).

In order to achieve its objective of focused learning and holistic development, the University uses a variety of knowledge delivery methods:

- **Lectures**
  Lectures are designed to provide the student with interesting and unexpected perspectives on the subject matter. Lectures are interactive and students work with their professors to get new insights in the subject area, on which they can build their own bridges to higher learning.

- **Discussions**
  A critical component of learning at Auro University, discussions are a platform for students to be creative and critical with old and new ideas. Besides developing consensus on various business issues, discussion groups lead to innovative problem solving and, ultimately, to success.

- **Business Simulations**
  These provide students an opportunity to understand real life business scenarios and solve business challenges in a controlled environment.

- **Case Studies**
  Real case studies challenge students to find creative solutions to complex business problems.

- **Team Work**
  Positive collaboration is critical in the work environment, and sidelines politics and understanding how to incorporate and balance personalities is the key to success.

- **Role-Plays**
  Assuming various roles, as in real business, is the key to understanding and learning in the MBA program. Students are challenged to make strategic decisions through role-plays, and to analyze the impact of these decisions on the business and its stakeholders.

- **Field Trips**
  Field trips provide an opportunity to students to test their in-class learning in real life situations as well as to understand the functional diversity in the workplace.

The academic curriculum and pedagogy at AUHM is designed to challenge students and provide them with a strong foundation to build exciting careers. It features:

- an emphasis on analyzing problems, generating key insights and implementing creative solutions. Examination of new business ideas is at the core of Auro’s curriculum, and students will often encounter situations for which there are no pre-determined answers. An Auro degree helps you develop clarity of thinking and decision making.

- a curriculum designed to strike the right balance between theory and practice, enhancing knowledge and skills while also encouraging experimentation in a low-risk environment.

- the opportunity to study how business is conducted across borders, in a global marketplace.

- discussion and debate in an academic environment, where professors and students encourage each other to uncover new ideas and find creative solutions to challenging problems.

- experiential learning integrated into each module of the program, with an emphasis on bridging the gap between theory and practice.

- learning how to build a new business through constant interactions with innovative entrepreneurs and internships with diverse companies through our Career Development Center.

- equipping students to thoughtfully consider the competing demands of business, individuals and society at large.
At Auro, we look for students that stand apart not only academically, but also as unique and dynamic individuals within a larger social ecosystem. Students are selected based on their past academic performance as well as their potential to contribute effectively to the classroom environment and to other activities. We are focused on maintaining an atmosphere that is conducive to collaboration and peer interaction, both within and outside the classroom.

The design of the curriculum is based on modules that trigger and develop in-depth thinking and problem-solving skills.

**General Education (Foundation Courses):** Preparatory courses designed to provide students with a basic understanding of key elements of business and society. These prepare the ground for more challenging and advanced core courses that follow.

**Core Courses:** These courses prepare students for the rest of the program by providing a fundamental understanding of how business works, and facilitate a deeper study of specialized areas of interest.

**Elective Courses:** Choice-based options that help students develop a deeper understanding of a specialized area of business operations such as marketing, finance or human resources management.

**Supervised Work Experience (SWE):** Requires students to work in selected companies for eight weeks and apply their learning on a day-to-day basis.

---

**University of South Carolina (USC)**

Auro is in a technical support and assistance agreement with the School of Hospitality, Retail and Sports Management and the Darla Moore School of Business at USC in the areas of curriculum development, delivery mechanisms, pedagogy, assessment, faculty training, and student exchange. The curriculum at Auro is constantly upgraded in consultation with our academic partners at USC.

---

**awards & accolades**

The University of South Carolina is among the leading institutes of higher education in the U.S. and has to its credit a number of awards and accolades:

- The School of Hospitality Management at USC is ranked among the Top 10 in the U.S.
- The School of Business undergraduate program in International Business is ranked 9th in the world by the Wall Street Journal and the School is ranked 2nd in research articles published by International Business Review.
- The University is among the Top 10 “Most Promising and Innovative Schools” in the U.S., according to U.S. News & World Report’s 2009 America’s Best Colleges guide.
- The University holds the highest research designation awarded by the Carnegie Foundation.

---

**exchange programs**

Auro is working with USC to provide its eligible undergraduate students with the unique opportunity to transfer credits after finishing their first two years at the Auro campus. After finishing the first two years in India, students can thus take a transfer to USC, and finish a 4-year undergraduate degree program. Students transferring credits to USC enjoy the same rights and privileges as any other student on campus.

---

**why just be when you can become**
The dedicated Career Development Center (CDC) at Auro University provides students with resources and avenues for career and professional development while they are studying as well as after graduation. This includes career counseling for individual students to prepare them for training, placements and recruitments. The CDC also organizes several workshops on a regular basis on a variety of useful topics such as choosing the right career, preparing CVs, drafting covering letters, facing interviews, grooming, corporate etiquette, job search strategies and options for higher studies in India and abroad.

The CDC opens up opportunities for students to find employment, summer internships and network with companies both locally as well as nationally. The Center devotes a considerable amount of time toward developing strong relationships with industry in areas that are the focus of studies at the Auro. The CDC not only provides consistent, superior, skilled, and high-quality services, but also creates an atmosphere of professional, friendly, reliable, and enthusiastic support to our student body.

JHM Hotels and their partner, Interstate Hotels USA, owns and operates more than 400 hotels across the globe. Students will have the opportunity to intern and work with JHM Hotels and their partners.

"...I applaud JHM Hotels for their commitment to the next generation of hospitality leadership in India."

"...As Marriott expands our hotel footprint in India and around the world, we hope to see the fruit of their dream come true as the students of Auro University fill the management ranks of our hotels and possibly become future Marriott hotel owners, as successful as Mr. Hasmukh P. Rama and JHM Hotels...

- J. Willard Marriott, Jr.
  Chairman of the Board and CEO
  Marriott International

"...I want to congratulate the entire Rama family for their vision, long term commitment, and dedication to the education of young people entering our industry. The strategic plan for the university, the curriculum and excellence of the faculty, and the world class facilities will assure the very finest education is offered to these worthy students. Students will not only receive an excellent education, but also be exposed to the best of business practices, a strong commitment to community, and uncompromised values and culture."

- Thomas F. Hewitt
  Chairman and CEO
  Interstate Hotels & Resorts

"...Auro will bring to India a new standard in hospitality education, and one with a truly global orientation -- so important as India takes center stage in the global economy."

"...We are certain that many of Starwood’s future leaders in India and beyond will come from within the Auro ranks. Mr. HP Rama and his family demonstrate so well, the hospitality industry provides a growing and truly global career path. We couldn’t be more impressed with their decision to invest in India, and particularly the future of its hospitality industry, which will change many lives in the process."

- Frits van Paaschlen
  President & CEO
  Starwood Hotels & Resorts

The following services are provided to students and alumni to prepare them, while they embark on their exciting careers:

- Individual and group counseling on career choices
- Seminars on current industry trends
- Summer internship opportunities
- Final placement opportunities
- Writing workshops
- Job search workshops
- Career choice workshops
- Strategies to face interviews
- Personality assessment and advice
- Pre-placement talks from prospective employers
- On-campus recruitment interviews
- Workshops on higher studies abroad
- Grooming workshops
- Personality development workshops
- Presentation and interview skills
The Auro campus is not just about academics but offers a transformative experience.

Designed by India’s leading university architects, the campus encourages formal and informal social interaction. Students from diverse backgrounds are encouraged to interact with each other over various activities, which are aimed at bringing the Auro community together.

Sports like cricket, soccer, basketball, badminton and athletics; extra-curricular activities ranging from theater, music, art, quizzing, debates, and more provide students with multiple avenues to express their talents and to develop new interests, which will last for a lifetime.
Surat, the commercial capital of the state of Gujarat, is one of the fastest growing cities in India. By 2020 it is estimated that Surat will be the largest city in Gujarat. The city has been ranked 36th in the list of the world’s largest cities, and is the 9th largest city in India. Surat is the textile capital of India and the diamond capital of the world - 92% of the world’s diamonds are cut and polished in Surat.

The sprawling Auro University campus is located 15 kilometers from Surat station and 7 kilometers from Surat airport. Within a 5-kilometer radius of Auro, there are a number of malls, multiplexes, restaurants, shopping and recreation zones. The campus features landscaped lawns, walkways and courtyards, multiple water bodies, and also a nursery equipped with a poly-house to serve the campus. It truly is, a home away from home.

Surat has a tropical monsoon climate, moderated strongly by the Arabian Sea. The summer begins in early March and lasts till June with an average temperature of about 30°C. The monsoons last from end-June to end-September with the temperature averaging at 28°C.

Roadside kiosks, called laaris or rekdis, are quite popular in Surat. In the cooler winter months, Surtis converge on the banks of the river Tapi to eat Ponk, a roasted cereal that is available only in this part of the world.

The kite-flying festival of Uttarayan, which falls on Makar Sankranti (14th January) is very popular in the city. It is also well known for the celebration of Chandi Padvo, which usually occurs around October and is a holiday unique to Surat.

Surat Metropolitan Region is widely regarded as one of the cleanest Metropolitan Regions in the country, with the city proper being the third cleanest city in India.

The state-of-the-art Learning Resource Center at Auro University is a user’s delight. Benchmarked to international standards, it provides the perfect environment for group and independent study. The LRC has a vast collection of books, magazines, offline and online journals, as well as a comprehensive audio and video collection.

The LRC uses Libsys Software, which is an integrated multi-user library management system that supports all the library activities. It is an integral part of the University and provides a safe, comfortable and friendly environment that enables learning and advancement of knowledge, and promotes discovery and scholarship.

The LRC has a rich collection of some of the best books on different subjects such as business management, hotel management, information technology, general education, philosophy, economics, and other related areas of study. Users can browse the library collection through the OPAC (Online Public Access Catalogue).

Surat is home to a number of institutions of higher education in streams like engineering, science, medical, arts and vocational fields. The famous Sardar Vallabhai Patel National Institute of Technology (ranked among the top five NITs in India) is located in Surat.

academic infrastructure

• Fully networked, air conditioned campus, wired for seamless internet connectivity
• Learning spaces with advanced audio, video, conferencing and networking facilities
• Virtual Learning Environment for students to stay connected to the classroom at all times
• Well-equipped training laboratories – kitchens, bakery and confectionery, and garde manger for hospitality students
• 5-Star Hotel for experiential learning
• Automated Learning Resource Center with a large selection of offline and online resources for students
• State-of-the-art computer laboratories and training center
School of Management and Entrepreneurship

The School of Management and Entrepreneurship, Auro University, has been established with the idea of imparting quality education to all. In its endeavor to deliver education for the real world Auro University will encourage, empower and enable students to unlock their true potential.

The School of Management and Entrepreneurship is the flagship department of Auro. The School currently offers:

• Full-time MBA program
• Part-time MBA program
• Full-time BBA program

The programs offer a deep understanding of the business challenges that must be faced in today’s emerging and mature global markets. All students benefit from the learning opportunities and very high quality interaction with faculty members. The programs that we offer meet this century’s challenges of rapid globalization and vastly-increased complexity. These are planned with the most innovative educational concepts with the application of contemporary cutting-edge business theories, taught by a team of leading faculty, all recognized in their respective domains.

With a commitment to promoting a more enriching and multicultural sprit on campus, we have laid the ground for inter-university co-operation. The School of Management and Entrepreneurship, Auro University, values international collaboration and cross-cultural learning, and toward this end, we have established a technical collaboration with the Darla Moore School of Business, University of South Carolina, USA. This inter-university co-operation will ensure that students have first-hand exposure to global best business practices in academia with special emphasis on delivery mechanisms, pedagogy, assessment, faculty training, and student exchange.

Auro University occupies its new, sprawling campus area across ONGC Bridge, Hazira Road. The modern architecture along with aesthetically done landscaping creates a stunning milieu. The School of Management and Entrepreneurship leverages the benefits of being strategically situated within the vicinity of the industrial hub at Hazira, Surat. There is a regular interaction with corporate houses like NTPC, ONGC, BHEL, ESSAR, KIRIBHCO, RELIANCE and others for industry exposure and linkages, providing students with hands-on learning opportunities that give them a competitive edge. Auro University’s holistic approach integrates academic, personal and professional growth, making education a truly transformative experience.

School of Hospitality Management

The Auro School of Hospitality (ASH) is committed to developing a new generation of highly motivated, achievement-oriented professionals who can take up leadership positions in today’s dynamic hospitality industry. Apart from disseminating knowledge and skills to students through education and training, the ASH faculty constantly strives to raise the bar by keeping abreast of the latest developments in the global hospitality industry and by generating new insights and knowledge through research. ASH is backed by the JHM International Group, which has a notable presence in the hospitality sector across the globe, making it the institute of choice for students aspiring to be sought-after professionals in the hospitality industry.

The mission of ASH is ‘Hospitality leadership through integral and transformational learning and education’. ASH accomplishes this mission by providing students with a holistic learning environment, engaging them in topical research, and enabling real-life exposure through a year-round industry interface. The curriculum is dynamic and is constantly revised to keep up with industry requirements. ASH programs are further strengthened through the distinguished collaboration with University of South Carolina (USC) for:

• Transfer of credit for students to pursue graduate program at USC
• Student exchange
• Faculty exchange
• Collaborative research

Currently the school offers three programs with intense value based and comprehensive curriculum

• BSc in Hospitality Management
• BBA in Travel and Tourism Management
• BSc in Culinary Arts

World-class infrastructure and facilities combined with on-going topical research by the faculty at ASH, and constant interaction with diverse stake holders across the sector, puts ASH on a platform that is shared by few hospitality education institutions around the world.
School of Commerce and Economics

The School of Commerce and Economics, Auro University, is specifically designed to expose students to current, relevant and critical issues in international commercial and economic systems, and to prepare them to face the challenges upon graduation. Globalization has brought to the fore several issues pertaining to commerce and economics raising the larger issues of administration and international mobility. Commerce Education is a type of training which while playing its part in the achievement of general aims of education on any given level has for its primary objective the preparation of people to enter upon a business career or having entered upon a career, to render more efficient service therein and to advance their present level of employment to higher levels. If education is thought of as adjustment of the individual to his environment, commerce education must be thought of as adjustment of the individual to his business environment.

The School of Commerce and Economics offers:

a three-year BCom program

The BCom program is essentially a first degree program with updated and contemporary course inputs that customize it for premium professional courses. The program lays stress on vital subjects like accounting, taxation, computer applications, banking, managerial economics, business law, e-commerce, business mathematics and statistics.

Apart from the core courses in the BCom degree, the School also offers courses in specialized areas such as Accounting and Finance, Marketing Management, Banking and Insurance, and E-Commerce. The syllabus is constantly updated to reflect new trends and developments in the subject and to take advantage of the latest infrastructure, such as a state-of-the-art computer lab. Students are acclimatized to the workplace through periodic industrial visits.

Various extracurricular activities like the Commerce Club, Commerce Magazine, market studies, field trips, surveys, debates, symposiums, running of the School Bank, running of the School Cooperative Store, projects and more, form an integral part of the program and provide hands-on experience.

School of Information Technology

Information is the new global currency. Information allows citizens to make informed decisions, provides business with its competitive advantage, and creates the opportunity to develop new knowledge and insights. The amount of new information (including text, video and audio) that is generated daily is in the order of three exabytes, or one billion bytes. The demand for highly-skilled knowledge workers to process, manipulate and analyze this ever-growing mountain of information has never been greater. Keeping in view the ever increasing demand for IT professionals the School of Information Technology has been established at Auro University.

The School of Information Technology provides excellent infrastructure with high-tech labs and advanced software for use by its students. High-end internet connectivity with IBM blade servers provides the backbone for all IT related work at the school. The School also has its in-house software development team which works closely with students on live projects on a regular basis. The School offers two undergraduate programs leading to a Bachelors Degree in Computer Application and a Bachelors Degree in Information Technology. Both these course have been benchmarked with international curriculum and are taught by experienced faculty who bring knowledge and understanding of the subject.

The Bachelor of Information Technology degree program will provide you with the essential skills to take your place as a knowledge worker in the information technology industry. The Bachelor of Information Technology core component covers principles fundamental to the information systems and computing discipline such as databases, data communications, systems analysis and design, information security and project work, plus emerging directions that prepare students to undertake an IT major or specialization from a specified list.

The teaching methodology is very applied and students are required to work on live projects which will help them develop the skills that are required for success in the industry. The School of Information Technology provides a very conducive environment for the students to excel in their field of specialization. As a student at the School of Information Technology at Auro University you will be challenged to become creative in your thought process and to meet the demands of academic requirements which at times can be very high.
School of Law

The School of Law at Auro University aims to impart law education of world-class standards, with an emphasis on research, consulting, training and allied activities to further the cause of academics and research.

The School of Law covers Indian as well as international laws, which have a bearing on various domains, including business, international trade and other areas. The teaching-learning process at the School of Law is designed to impart an optimal blend of knowledge and skills with a focus on real-world application. The approach encourages multi-disciplinary inquiry and emphasizes practical appreciation of problems. The pedagogy at the School of Law involves lectures, moot courts, cases, case studies, judgment review and analysis, projects, assignments, and more, thereby providing an integrated learning experience.

The School of Law offers:
- **a three-year LLB program**
- **an integrated five-year BBA-LLB program**

The courses may be taught by two or more faculty members under a module leader to facilitate academic delivery by professionals and/or academicians having proven competencies and experience in different domains of law and allied areas.

Interactive sessions between faculty members and students provide a highly enriching and motivational learning environment that promotes very high standards of teaching and learning in a participative mode, leveraging the knowledge and experience of both faculty members and students.

Teaching is facilitated by the module leader by providing a detailed teaching plan, which includes details about the textbook, reference materials, course outline, and a module handbook that includes assignments, cases, and other information. The module handbook also contains various case studies, lecture notes, research papers, judgments and judicial reviews of various courts, reports, and allied content.
